## Our Products

Providing completely suitable clouding solution for enterprise variety requirements and full range ICT service.

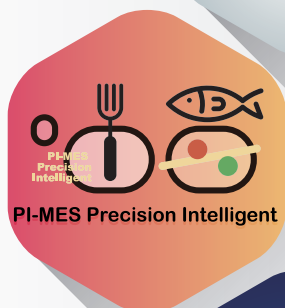

### Strategy Human Resource Platform

The Strategy Human Resource Platform not only features comprehensive modules of personnel management, but also facilitates human resource development of enterprises including aspects of recruitment, talent assessment, training, succession planning, etc. to fulfill the vision of building a solid organization.

### Smart Decision-Making Platform

With "employee", "work" and "workflow" as the cores, SMART Maker serves as a high-performance management platform enhancing "alert management" and "rolling growth" for your business. It boosts both employees' work efficiency and supervisors' management, and further assists with the decision making.

### Food Safety Cloud Platform

The Food Safety Cloud Platform is a traceability portal providing consumers with timely access to factory-to-store information of food products. In addition, it allows food manufacturers and catering companies to trace and manage production lines from the front-end POS, the headquarters' ERP system, the processing plant's MES system, to the platform of the originating farms.

### Web App Development Tool

This ultimate development tool DreamMaker Plus solves your development problems with organization management, authorization, forms, workflow and graphs by using existing components. Featuring high-level manageability and flexibility, it reduces IT workers' repetitive workload and allows them to spend more time on tasks requiring advanced skills such as designing business logic, which enables them to achieve competitive advantages.

### App Development Tool

With our application development tool iApp, you only need one development platform to build the Web, Web App and Native App without high-cost and high standard hardware facilities. Now you have the ideas for your app, leave it to iApp!
